Toni Turner Budd is an attorney at Davis Graham & Stubbs LLP. Her experience is primarily in the areas of aviation, intellectual property, commercial and government transactions, cross-border initiatives, and antitrust and federal contracts compliance. Before joining DGS, Ms. Turner Budd practiced for eight years with in Tulsa, Oklahoma, focusing on intellectual property transactions and litigation, government contracting formation and administration, licensing, asset sales, new product and service programs, and cross-border initiatives, primarily in the technology, business-to-business information, and commercial finance sectors.

Before practicing law, Ms. Turner-Budd held various management and financial positions, exercising business judgment in operations, and gaining significant experience in the areas of commercial construction, residential property management, product manufacturing and distribution, oil and gas drilling and production, film and video production, and live theatre entertainment.

NOTABLE TRANSACTIONS

- Represented the purchaser in the acquisition of an EU-based airline conducting cargo operations and unscheduled passenger flights. The transaction involved unusually complex legal, tax, investment, financial, operational, regulatory, litigation, and due diligence issues across nine countries on four continents.
- Represented Invidi Technologies Corporation, the leading provider of addressable advertising software solutions for the cable and satellite television industry, in numerous technology transfer transactions, software development, licensing programs, intellectual property protection, and strategic partner transactions (including with Google, WPP/GroupM, Experian, Motorola, DISH, DirecTV, Verizon, and others).
- Represented the NORDAM Group in various development programs, technology transfers, joint ventures, and alliances, including cross-border transactions to develop, certify, manufacture, market, sell, and distribute new aircraft products and technology-based solutions. The NORDAM Group is a leader in the manufacture, repair, and overhaul of aircraft components, with facilities on three continents serving more than 150 commercial carriers and original equipment manufacturers (OEMs) for commercial, regional, corporate, and general aircraft.
- Represented TRICON Geophysics, Inc. in various strategic alliances to develop software and other intellectual property and associated licensing activities. TRICON is a leader in seismic processing services for the oil and gas industry and has operations in the U.S., Canada, Venezuela, and Colombia.
- Represented various purchasers, borrowers, operators, and taxpayers in all aspects of the acquisition, leasing, financing, and 1031 exchanges of aircraft, including counseling of best practices for establishing aircraft operations.
- Represented manufacturers in the formation and compliance of federal contracts.
